# RASTEROPS HAS WHAT YOU NEED TO B

When you look around the RasterOps booth at Macworld Expo this year, you'll see unbeatable monochrome, gray scale and color systems. You'll see the coolest new display systems for the hottest new Macintoshes. And True Color hardware and software that have earned us our place as the leader in color technology. But all that is only part of the picture. This year we've teamed up with other industry leaders to bring you a complete line of total solutions. And we're giving six solutions away.

Enter in any, or all six, of the categories that interest you. For each entry you'll be eligible to win a different total solution complete with RasterOps boards and monitors, Macintosh IIcx computers and some of the best software available.

## HERE'S HOW EASY IT IS TO ENTER:

1. Choose a category, or categories, that interest you.
2. Look for the RasterOps exhibit at each of the participating vendor booths listed in the categories you've chosen.
3. Ask for a demonstration and see how RasterOps display systems make great solutions even better.
4. Locate the appropriate entry card on the far right of this form.
5. Have a vendor representative stamp their corporate logo on each applicable entry card.
6. Collect all the stamps necessary to complete each entry card for the categories you've chosen.
7. Fill out the back of the entry card and drop it in the appropriate bin at RasterOps Booth 507. The drawing is at noon on Sunday. And you don't even have to be

### PREPRESS

Unbeatable prepress solutions start with the RasterOps Calibrator which set the standard for color accuracy, and the RasterOps Accelerator which brings you True Color up to 600 times faster.
